

IMPLICATIONS

Since the Bible is proven to be true that means that there was a Saviour who came to this Earth and paid the penalty for your lawlessness. Jesus Christ loves you and wants to save you. If you don't accept Jesus Christ as your Lord and Saviour then your sins will not be forgiven. This means that when Jesus comes again, you will be punished for breaking God's law. To choose Jesus and to follow the teachings of Scripture means that you will have the assurance of eternal life, and in the future enjoy the pleasures of an Earth made new.

BIBLE & SCIENCE

Job 26:7 says "He hangs the earth on nothing."

~ The Earth is suspended in space.

Isaiah 40:22 says "It is he that sitteth upon the circle of the earth..."

~ The Earth is round.

Job 28:25 says "To make the weight for the winds..."

~ Air has weight. The air we breathe is made out of atoms that each have atomic weights.

BIBLE & HEALTH

The Bible says that swine (pigs) are unclean. (Leviticus 11:7) Pigs should not be eaten because their bodies hold a lot of parasites and toxins. Mehmet Yardimci from Tekirdag Namuk Kemal University stated in his study on pork consumption that "there are risks of bacterial, viral, parasitic infections, toxins, cause of cancer and heart diseases, bacterial resistance as well as harms due to the cooking process" associated with the consumption of pork. There are special poisons called sutoxins that cannot be broken down by the body of the person who consumes pork.

BIBLE & HEALTH

When the prophet Daniel consumed a plant-based diet, he was found to be ten times wiser than all the magicians and astrologers that were in Babylon. Science has proven that higher IQ scores in childhood are associated with an increased likelihood of being a vegetarian as an adult. Greater adherence to a dietary pattern consistent with a plant-based diet was related to better performance on all cognitive tasks. Plant-based diets lower people's risk of cognitive decline and dementia. Vegans report higher happiness levels than meat-eaters. A high-quality plant-based diet may be protective against depressive symptoms in vegans and vegetarians. In line with emerging research between food and mental health, higher-quality dietary patterns are associated with a reduced risk of depressive symptoms.
